Dear Cynthia Bertocci,

Please deliver these comments to the BEP.

Dear Chairman Parker and members of the Board of Environmental Protection:

I urge you to reject the latest version of DEP's weak mining rules. I am very concerned that these weak rules would allow mining corporations to pollute our water and harm our woods and wildlife for centuries. They also would not protect taxpayers from having to pay for the cleanup of mining disasters.

Maine's environment and economy are inextricably linked. Maine's rich outdoor heritage and natural scenic beauty are at the heart of our tourism industry, a critical part of our economy. Thousands of Maine people need our state's healthy environment to make their living and provide for their families. Guides, commercial fishermen, and sporting camp owners all depend on Maine's clean water and abundant fish and wildlife. Mining pollution would be a grave threat to these resources.

In my travels throughout this country and Canada I have seen the horrendous harm that mining does to the land, the water and the air in and around the mining site. And I have seen how this harm continues year after year as mining companies find ways to avoid their obligations and promises to clean up the environment.

Please follow the lead of both the 126th and 127th Legislatures, and reject these rules.

Sincerely,

Sandra Hodge
