Dear Ms Clark and Ms Burke,

I have been following the Juniper Ridge Landfill concerns. I read that The Maine Board of Environmental Protection (BEP) is currently considering changes to Maine's waste policy that would change the definition of Maine-generated waste in order to control the disposal of out-of-state waste in Maine's publicly-owned landfill, and require the consideration of environmental justice and equal protection when expanding or siting waste facilities in Maine.

I support this work. I also support the banning of out of state waste. Maine's air is referred to as the tailpipe of the country. Can we at least protect our land and water?

Thank you,
Mary Dunn
