Deputy Director Eleftheriou,

I am writing to you in opposition of the Norridgewock Landfill Expansion. I'm concerned how much closer this expansion will bring the landfill to the town water supply. This is a risk and a precedence we do not want to set.

Approving this new landfill site will also create new capacity in Maine for out-of-state waste, which will do nothing other than increase pollution and threaten drinking water for all area residents.

There is absolutely no public benefit to this expansion and under law that is required for approval. It is critical that we come together to protect the Kennebec River region against development and energy industries, so please do not allow this expansion to happen and vote against it.

Thank you.

Sincerely,

Daria Cullen
