To whom it may concern,

I am 100% opposed to the expansion of a waste disposal site at Norrigewock that would accept toxic substances from other states for profit. Maine lands and waters are not for sale at any price. There is no monetary compensation that would offset the impact to the health of local people, animals, birds and fish (particularly Atlantic Salmon).

Furthermore, it is morally reprehensible to consider locating a toxic waste site there as the area is a traditional region for gathering food as well as being a sacred site as the location of the 1724 massacre of Abenaki people by colonial troops.

Thanks for all you do to protect our lands and waters,

AMY JENNER
