Written Testimony to the DEP:

I am submitting testimony on behalf of myself, my family, and my fellow Mainers who are concerned about upholding our laws, and about protecting Maine's precious Northwest Woods.

I implore the DEP to suspend the permit issued for the "New England Clean Energy Connect" due to the fact that CMP/Avangrid/Iberdrola and their NECEC project no longer possess the Title Right and Interest to complete the entire line.

Unless CMP can resolve their routing issues and get obtain legislative approval, then the permit should be suspended, and construction stopped completely. With the fate of the corridor in doubt, the environmental and wildlife habitat destruction caused by clear cutting and development for this corridor must cease.

In light of Justice Murphy's decision, I urge the DEP to suspend the NECEC permit and order a stop to all work on the corridor simply because CMP/NECEC no longer has Title Right and Interest for the entire line.

Sincerely,

George (Bud) Samiljan

The Forks and Durham, ME
