I need your help. I am in N.H. but would like you to speak up for me.

Just say big, old growth trees do more to preserve our fragile ecosystem than 10 93 10, 000 miles of power lines.

That corridor should NEVER have gotten this far.

It is against the people's wishes, and more important it damages further our alreadyfractured and broken ecosystem, which we all depend on for our lives.

Alice E White
Retired farmer
(and advocate for species that cannot speak for themselves)

Thank you for reading this for me!
