To the commissioners,

Thank you for making time for the public to present testimony on the illegal lease across our public lands for the hydro Quebec transmission line. The law clearly requires the legislature to approve by a 2/3 vote any lease of public land. Yet three back room deals have been made to ramrod this boondoggle through one of our largest tracts of forested land, despite extensive public outcry and mobilization to fight this give away disguised as "green energy". Will you stand and uphold the law or bend over to accommodate the willful political elite? Many will be watching. Thank you for your dedication in advance.

Abi Morrison
