For anyone to support the CMP line is incredibly disappointing. I dont see how any Mainer can support this type of destruction to our wilderness.

Supporting this project will destroy the vast beauty of the open wooded landscape in the area. Many camps and trails are over 1,000 feet above sea level, this allows for many scenic opportunities. With this project we will now look out to see a large path cut with powerlines.

Again, I dont see how any Mainer can agree to this, the outdoors is a huge part of our way of life and for the tourism industry. People come from all over the country to see our landscapes and experience the Maine outdoors.

This is a bad deal for Maine, the vast majority of people oppose it. thanks for your time

James
