I have recreated in some of the areas that will be affected by cmp's proposed corridor for decades, and losing the remoteness and uniqueness of those areas just so cmp can make a pile of money with little or no benefit to Maine and mainers bothers me. What bothers me more is that this company has repeatedly lied to and stolen from consumers and is being taken at it's word. Aside from the problematic "smart meters" and recent overcharging lawsuit I have been lied to directly by cmp representatives in order to secure a job. When I discovered the misinformation I was told that not only was the information I was given untrue, but that nobody at cmp had given me that information. They of course had already cashed the check. I know how this company does business. Anyone who trusts them is a fool. Follow the will of the people of Maine and reject this project.

Thank you  
John Lentz
