I have attended most of the Planning Board meetings concerning the plans of of the proposed Nordic Aqua Farm here in Belfast .

What has concerned me most is that their plans are like a piece of Swiss cheese, full of holes. Time and time again questions asked by the Planning Board or citizens regarding the farm were met with “ I don’t Know , or we will have to let you know later.”. I couldn’t believe my ears.

They want to put a five hundred million dollar factory farm in our little town and they obviously have not put in the time required for proper planning.

Nordic should have completed their plans before they approached our city council. Belfast City Council should have told Nordic to come back when you get your act together

The life of our little town is at stake. We don’t need this monstrosity . We need businesses more suited to a city the size and needs of Belfast, Not some corporation with a huge carbon footprint that will suck our little town dry .

Thank you for your time and attention,
