Re: Nordic Aquafarms Proposal

In the names Board of Environmental Protection and Department of Environmental Protection are, fully visible, mandates.

It's not the Department of Giving Big Business What They Want.

I understand our economy is based on "growth," which no longer makes sense (that's another discussion). Point is: Now is the time to draw a line and say No to the invasion of huge RAS salmon plants in Maine.

Defend the environment please and thank you.

Sincerely,
