Dear Jessica,

I am not in agreement with trading the long term impacts to nature and visual scenic resources of state and national significance, as well as final dismantling (or not) of 600' tall machines, for the short term benefits of this very inefficient power source and small local investment.

In the SWEB repot to DEP , there is no visual assessment from Mountainy Pond which is an unacceptable oversight. I ask that this be required of SWEB.

Thank you for your consideration.
