I agree that *(select all that apply)*:

- Wind projects should not be sited and/or expanded on lands surrounding Pisgah Mountain.
- Additional wind towers on Pisgah Mountain will negatively impact scenic resources of local and state significance, and further detract from my enjoyment of the surrounding area.
- I will see and/or hear (even within permitted sound levels) the towers from my home and I find that distressing.
- I believe studies that show proximity to wind towers lowers property values.
- I believe that the unnatural noise levels in this rural, scenic setting present far reaching health hazards to humans and wildlife.
- I believe that the Silver Maple developers have not taken adequate steps to protect wildlife, especially bats and birds.

I participate in Area *(select all appropriate)*:

- Own Land Live Work Visit
 - Rock Climb Hike Fish Swim
 - Bird Watch Boat Hunt Camp
 - Stargaze Other Mostly Enjoy Serenity
- I enjoy scenic features of *(select all that apply)*:**
- Burnt Mountainy
 - Lakes Floods Hopkins
 - & Hatcase Holbrook
 - Ponds: Graham Second
 - Green West Branch of Union River
 - Areas: Eagles Bluff
 - Parks Pond Bluff
 - Peaked Mountain (locally Big Chick)
 - Little Peaked Mountain (locally Little Chick Hill)

Additional Comments: I have grown up and now own waterfront land on Hopkins Pond. The #1 thing i love about our lake is how quiet and serene it is. To go out on the lake and take in the sights and sounds of Gods creation is a gift. moments like sitting on my dock with my morning coffee enjoying the view, watching the most inspiring sunset on earth from my dock is something i treasure. Please don't ruin this for me or my children as they will also enjoy this for generations!
