Jim it is not permitted on the north end. All the land around it is private so you would need to ask the owner of the southern end. We have a gate there to limit motorized vehicle access in an agreement with them. I believe they will allow hiking. Ice fishing I believe you will find in the lawbook is not allowed and open water fishing again is limited to the south end only. FYI during a watershed inspection this week the middle was still open.

Best Regards

Subject: Hatcase Pond

To whom it may concern,

Is fishing or hiking around Hatcase Pond permitted?

Jim Palmer
