THIS ACCESS LICENSE AGREEMENT (“Agreement”), dated January 28, 2022, is entered into between **CENTRAL MAINE POWER COMPANY**, a Maine corporation having a primary place of business at 83 Edison Drive, Augusta, Kennebec County, Maine 04336, (“CMP”), and **THREE CORNERS SOLAR, LLC**, a Delaware limited liability company with a mailing address of 330 Congress Street, 6<sup>th</sup> Floor, Boston, MA 02210 (“Licensee”), for itself and its successors and assigns.

### WITNESSETH:

WHEREAS, CMP owns certain land located in the Town of Benton, State of Maine, designated by CMP as the Albion Road Substation Lot situated at Benton, Maine, described in deeds dated May 3, 1977 and recorded in the Kennebec County Registry of Deeds in Book 2009, Page 284, and other land abutting the Albion Road Substation Lot described in a deed dated February 19, 2015 recorded in said County Registry of Deeds in Book 11917, Page 216 (“CMP’s land”).

WHEREAS, Licensee owns, leases or has options to own, lease or has easement rights to certain land (the “Licensee Land”) situated at Benton, Maine, as described on **Exhibit B** attached hereto related to Licensee’s solar project (the “Project”), and those rights will be vested after Licensee exercises its options.

WHEREAS, Licensee is desirous of entering into an access license agreement for the purposes of Licensee’s construction, maintenance, repair, rebuilding, re-space, replacement, operation, patrol and removal of a single circuit overhead, three-phase 115 kV electric generator lead line (“Improvements”) across a portion of CMP’s land as described in this Agreement consisting of suitable and sufficient poles, cables and towers and sufficient foundations together with lines extending upon, within and between the same for the transmission of electric energy and intelligence related thereto, together with any fixtures, anchors, guys, cross-arms and other equipment and appurtenances related to the Project, such Improvements to be permitted in the location and as depicted on a plan attached hereto as **Exhibit A** and made a part hereof (the “Access Area”).

WHEREAS, CMP is willing to enter into an access license agreement to permit the Improvements within the Access Area subject to the conditions set forth in this Agreement.

NOW, THEREFORE, in consideration of the foregoing recitals, the mutual covenants contained herein, and other good and valuable consideration, the receipt of which is hereby acknowledged, CMP and Licensee agree as follows:

1. CMP hereby permits the Improvements within the Access Area conditioned upon and provided that the Improvements shall at all times be subject to and in accordance with the terms and conditions set forth in this Agreement.
2. This Agreement and the Improvements shall in no way encumber CMP's operation and maintenance of its transmission line(s) within CMP's land. Licensee's use of the Access Area shall not interfere with or impair the facilities and operations of CMP, including the addition, operation, replacement, upgrade and maintenance of any transmission lines, structures or other transmission line facilities; provided that this restriction shall not be construed to prevent Licensee from constructing and maintaining any permitted Improvements set forth in **Exhibit A** in accordance with and subject to the terms of this Agreement.
3. This Agreement shall commence on the date hereof and expire on January 28, 2064, ("Term"). The Improvements may be revoked and this Agreement terminated prior to the expiration of the Term upon sixty (60) days' written notice by CMP for any failure to comply with the terms and conditions of this Agreement; provided, however, that Licensee shall have thirty (30) days following such notice to cure such failure. If the thirty (30) day cure period does not allow sufficient time to cure such failure then CMP may agree upon a specific extension of the time to cure the failure or agree upon a specific resolution of the failure. Any extension of the term of this Agreement shall be separately agreed to by the parties in writing and any negotiations regarding an extension of the Term shall commence within six (6) months prior to the expiration date stated in this paragraph.
4. Once fully executed, Licensee may record at Licensee's expense this Agreement in the registry of deeds in which the Access Area is located. In the event that this Agreement is terminated or abandoned in accordance herewith, CMP may cause a notice thereof to be recorded on Licensee's behalf at such registry of deeds.
5. CMP shall have use of roadways that now exist or will be constructed by Licensee within the Access Area or between any public road and CMP's land for all purposes of access to its transmission line corridors. Gated roads are acceptable, provided a dual lock system is established for independent access.
6. Licensee shall notify CMP prior to commencement of construction of any Improvements on CMP land which shall be located and constructed as shown on **Exhibit A** and the Design Plan (defined below) therein contained. In the event that Exhibit A does not include the site design showing grade, elevation and design ("Design Plan"), or in the event that anticipated construction of any Improvements by Licensee will vary in design or construction from that set forth in **Exhibit A** or the Design Plan otherwise agreed to by CMP prior to this Agreement, then prior to construction of the Improvements, Licensee shall provide CMP with a site design showing the grade, elevation and design to review for clearances and determine compliance with the terms of this Agreement. CMP shall have the right to object to any such modified site design that provides for inadequate clearance or is not in compliance with this Agreement

and require Licensee to redesign the Improvements in order to comply with the same prior to commencement of construction.

7. Subject to the terms, limitations, and conditions in this Agreement and **Exhibit A**, CMP will permit the construction and maintenance of the Improvements across the Access Area by Licensee.
8. The Improvements shall be constructed, repaired, maintained, protected, operated, and removed by Licensee and at no cost or expense to CMP. Licensee shall own the Improvements constructed by Licensee.

Licensee's use of the Access Area shall at all times be performed in accordance with the requirements of any and all applicable codes and standards, federal, state, or local codes, rules or ordinances and commonly accepted utility practice (including, without limitation, safety regulations). Without limiting the foregoing any Improvements constructed and located within the Access Area shall be constructed and maintained at the sole risk and expense of Licensee

9. Any roadway constructed for construction and maintenance of the Improvements and located within the Access Area shall be constructed in a manner so that the existing grade shall not be increased beyond Licensee's grading plan previously approved by CMP in accordance with this Agreement.
10. Licensee will take any steps as required by local, state, and federal permits, laws, ordinances, rules, and regulations to ensure that erosion does not occur and will, at their sole expense, repair any erosion which may occur as a result of the exercise of the rights herein.
11. During the term of this Agreement, Licensee shall maintain, or cause its contractors to maintain, appropriate and adequate workers' compensation, automobile and commercial general liability insurance (in an amount not less than Three Million Dollars (\$3,000,000) per occurrence and Five Million Dollars (\$5,000,000) in the aggregate) and other applicable insurance, with solvent, reputable insurance companies rated not less than A-/VII in the most current "Best's Key Rating Guide" and qualified to do business in the State of Maine in connection with the use of CMP's land under this Agreement. Each of the policies required hereunder (other than workers' compensation insurance coverage) shall name CMP as additional insured and shall include endorsements that are reasonably acceptable to CMP. Licensee shall provide to CMP a copy of the certificate of insurance or a copy of the insurance policy and relevant additional insured endorsement evidencing coverage required hereby at full execution of this Agreement and thereafter, and from time to time upon CMP's request and one (1) time annually, during the term of the Agreement. The amount of insurance coverage required by this Agreement may be reassessed every 5 years and amended as necessary to ensure that the coverage adjusted for inflation is consistent with the amounts set forth herein.

12. Licensee will be responsible for all taxes lawfully assessed against any of the Improvements installed by or for Licensee within CMP land, including without limitation the Access Area.
13. CMP shall not be liable to Licensee for any damage to Licensee's property, including the Improvements, on CMP land caused by CMP's use of its land for public utility purposes, other than due to CMP's willful misconduct.
14. Except for the Improvements permitted by this Agreement, no buildings, improvements, or other structures (including but not limited to fencing) shall be erected, moved or placed on CMP land by Licensee, nor shall any trees or other vegetation (beyond that used for typical erosion control purposes as agreed to by CMP and in compliance with CMP's non-capable species list), be grown or cultivated, within the Access Area by Licensee. No equipment, vehicles, or materials shall be stored upon CMP land by Licensee except as may be provided for in a separate agreement for temporary construction access and laydown area, not made a part hereof.
15. No fueling or refueling of equipment or fuel storage shall be permitted on the Access Area (or any adjacent portion of CMP land) by Licensee, except as may be provided for in a separate agreement for temporary construction access and laydown area, not made a part hereof. No snow shall be stockpiled within the Access Area (or any adjacent portion of CMP land).
16. Licensee or its authorized agent(s) shall notify the Dig Safe Call Center prior to commencement of any excavation on the Access Area at 1-888-DIG-SAFE and comply with the provisions of both the Maine Dig Safe Statute Title 23, M.R.S.A. Section 3360-A.
17. Licensee shall comply with Maine's Overhead High Voltage Line Safety Act, 35-A M.R.S. § 751-761 (and any subsequent amendments to or replacements thereof), and shall not use any equipment, mechanical or otherwise, within fifteen feet (15') of the lowest overhead electric conductor constructed, maintained, and operated over the Access Area (and any adjacent portion of CMP land) unless there is a CMP inspector on site inspecting the work. The CMP inspector shall have the right, but not the duty, to halt all work on CMP land if it is deemed that the Licensee's actions present an unreasonable risk to persons or CMP property.
18. Licensee shall be responsible for the cost of relocating or raising pole structures and or wires, located within CMP land, if the constructed Improvements vary from the Design Plan as approved pursuant to Section 6 and CMP determines in its sole discretion that (i) the grade of any roadway or (ii) the Improvements interfere with said pole structures or wires, or CMP's maintenance thereof.
19. Licensee will, at its sole expense, obtain prior to any construction (or as the case may be prior to undertaking any action or making any improvement requiring a local, state or federal permit), and will at all times comply with, construct, operate and maintain the Improvements in compliance with all local, state and federal permits, and will comply with all laws, ordinances, rules, regulations, conditions of approval, and requirements of all

federal, state and local governments and appropriate departments, commissions, boards and officers thereof, which may be applicable to the exercise of the rights herein and use of the Access Area contemplated hereby. CMP shall have no obligation to obtain, or join in obtaining, any local, state or federal permits applicable to the Improvements. Licensee shall not cause CMP to be in violation of any permits and shall not subject CMP, the CMP land or any portion of CMP's facilities located within the CMP land to any stipulation or permit condition pertaining to vegetation management, equipment access, buffers or other environmental restrictions, including but not limited to stipulations and permit conditions of the Maine Department of Environmental Protection without CMP's prior written consent. In the event that CMP determines in its sole discretion, the need to join in (or desires to participate as an interested or affected party in any proceeding regarding) an application for any permits related to Licensee's activities on CMP land, any such permit applications shall be provided to CMP for approval prior to submittal (other than Licensee's Maine Department of Environmental Protection and U.S. Army Corps of Engineers applications which CMP may review after Licensee's submission), and any such permit related documents shall be shared with CMP. Without limiting the generality of the foregoing, unless CMP has hereinafter provided prior written consent to be bound by a term or restriction in any above permit, following its review and approval thereof prior to the permit being issued or obtained, CMP shall have no obligation to comply with, take any action or abide by any restriction, contained in any local, state, or federal permit (or any agreement of Licensee in connection therewith).

20. Upon expiration, termination, or abandonment of this Agreement, Licensee shall at its own cost and expense promptly remove the Improvements and restore and repair any damage to the Access Area (and any adjacent portion of the CMP land) to CMP's reasonable satisfaction. In accordance with Section 4, CMP shall be entitled to record a notice of the termination of this Agreement on Licensee's behalf in the Registry of Deeds in which the Access Area is located. CMP shall have the right to determine this Agreement abandoned in the event that Licensee fails to use the Access Area for a period of five consecutive years.
21. CMP may, at its option and sole cost, and after commercially reasonable advance notice to Licensee in order to permit coordination and cause minimal disruption to Licensee's permitted uses hereunder, relocate, move, modify, or otherwise alter the location of the Access Area and/or Improvements thereon provided said relocation, movement, modification or alteration is for public utility purposes and the Licensee retains substantially the same uses as described herein in the locations shown in **Exhibit A** hereto. In the event that actions under this Paragraph require taking Licensee's Project off-line, CMP will endeavor to work with Licensee to coordinate timelines and minimize disruptions in accordance with the terms of the LGIA between Licensee and CMP.
22. Licensee, for itself and its directors, officers, employees, contractors, agents and successors and assigns, hereby releases and waives any and all claims, demands, damages, liabilities, actions, causes of action, suits, judgments, penalties, and fines of any type or nature (collectively, "Claims"), including but not limited to claims for personal injury, death, or property damage, they now have or may have in the future against CMP and its parent

corporation and affiliates and their respective directors, officers, employees, contractors, agents, successors, and assigns, which may arise out of the Licensee's use of the Access Area, or the Project pursuant to this Agreement or otherwise.

23. Licensee, for itself and its directors, officers, employees, agents, successors, and assigns, agrees to indemnify CMP and its parent corporation and affiliates and their respective directors, officers, employees, agents, contractors, successors and assigns and hold it and them harmless from and against any and all claims, arising out of the Licensee's use of the Access Area, or the Project. Additionally, Licensee for itself and its directors, officers, employees, agents, successors, and assigns, hereby waives any defenses or immunity they might otherwise have under applicable worker's compensation laws or any other statute or judicial decision disallowing or limiting such indemnification, including without limitation, *Diamond International Corp. v. Sullivan & Merritt, Inc.*, 493 A2d. 1043 (Me. 1985), and Licensee consents to a cause of action by CMP for Indemnity.
24. Licensee agrees that in the event of a breach by Licensee of the terms and conditions of this Agreement, CMP shall be entitled to seek injunctive relief, in addition to any other appropriate relief at law to which it may be entitled, including the right of termination as set forth above and any claim for damages or indemnification hereunder; provided, however, that, in connection with seeking such relief, and without limiting any other remedy or indemnity provided herein, in the event Licensee shall fail to comply with the terms, covenants and conditions set forth in this Agreement, including any exhibits or attachments hereto, or defaults in any of its obligations hereof, and Licensee shall fail to cure any such default in accordance with Section 3, and CMP consequently initiates a legal proceeding against Licensee in order to enforce or defend CMP's rights under this Agreement and such process results in a final judgment or ruling in favor of CMP, then Licensee shall reimburse CMP for all direct, indirect, or incidental documented expenses incurred, including, but not limited to reasonable attorneys' fees and costs, in order to enforce CMP's rights hereunder or otherwise in connection with any such legal proceeding.
25. Licensee may assign this Agreement, and its rights hereunder, at any time (a) to any entity providing financing as security for or in connection with a financing or other financial arrangement for the Project (a "Security Assignment"), or (b) to any other person or entity who accepts and assumes in writing by separate assignment agreement all of Licensee's rights and obligations hereunder, provided, however, that, except for any Security Assignment, the effectiveness of any such assignment shall be conditioned upon Licensee not being in default of this Agreement. Licensee's right to make a Security Assignment is further subject to and conditioned upon the requirement that if the financing party exercises its remedies with respect to this Agreement, all terms of this Agreement, including without limitation any provision regarding the subordination of rights of Licensee, shall be binding upon the financing party, and upon the recipient of a future transfer by or assignment from the Security Assignment. Any Security Assignment shall be subject to the requirements of this paragraph. Except for any Security Assignment, any assignment of this Agreement is subject to CMP's written approval and consent, such consent not to be unreasonably conditioned, withheld or delayed, and which may be conditioned on, among other things, the assignee's (1) compliance with all insurance and indemnification obligations under the

Agreement, (2) ownership of the Project; and (3) satisfactory production of written documentation to provide financial assurance that assignee is able to fulfill all obligations under the Agreement. Prior to any assignment, except a Security Assignment, Licensee shall provide CMP with written notice of such assignment. Each party agrees that it shall, at any time and from time to time during the term of this Agreement and within (10) days after a written request by the other party, execute, acknowledge and deliver to the requesting party a written statement certifying that this Agreement is unmodified and in full force and effect (or modified and stating the modifications), the dates to which the payments and any other charges have been paid, and that there are no defaults existing (or that defaults exist and stating the nature of such defaults), and stating such other facts as the requesting party may reasonably provide. The failure of a party to deliver any such certificate within such time shall be conclusive upon such party that this Agreement is unmodified and in full force and effect, all payments to such party are current, there are no defaults existing, and such other facts are true and correct.

In the event of an assignment, except a Security Assignment, the assignee shall execute an agreement to assume all of Licensee's obligations in a form reasonably acceptable to CMP, which shall contain, in a form reasonably acceptable to CMP, a covenant on the part of the assignee to assume all of the obligations of Licensee hereunder. Within ten (10) business days of the execution by Licensee and any assignee of any permitted assignment, Licensee shall deliver to CMP an executed copy thereof.

26. This instrument is an agreement between the parties and no provision in this Agreement shall be construed as conveying any rights to Licensee not expressly stated herein nor shall any liability arise from CMP's use of its land.
27. This Agreement shall inure to the benefit of and be binding upon the respective successors and permitted assigns of a party hereto. The use of the term CMP or Licensee herein shall mean and include its and their respective successors and assigns.
28. In the event that any changes, modifications, or amendments may be required or requested by either party, the parties agree that any such changes, modifications, or amendments must be in writing and executed by both parties.
29. This Agreement may be executed in any number of counterparts, each of which shall be effective only upon delivery and thereafter shall be deemed an original, and all of which shall be taken to be one and the same instrument, for the same effect as if all parties hereto had signed the same signature page.

The parties hereto agree to the terms of this Agreement as indicated below by their signatures or the signatures of their duly authorized representatives.

This Temporary License Agreement ("Agreement") shall allow Licensee to use the Property for construction access and laydown area, as described in Licensee's access and staging plan submitted to CMP and as shown on Exhibit A both attached hereto, during the construction activities associated with the Licensee's generator lead line. The License to be contingent on the following conditions:

1. Licensee is responsible for providing a copy of this Agreement to its employees, contractors, subcontractors and/or agents and may be asked to provide to CMP an acknowledgment of receipt of this Agreement by said employees, contractors, subcontractors and/or agents.
2. Licensee shall be allowed access to the Property thru the existing access roads identified on Exhibit A and shall maintain its own gates and locks on the gate. The gates will be kept closed and locked at the end of each work-day and/or during those times when not in use.
3. The term of the License shall commence on 7/15/22 and will expire 7/15/24, unless either party notifies the other party of their intention to cancel the License, in writing, at least 60 days before such cancellation. At the end of this License or any cancellation, Licensee will return the Property to its original or better condition, except CMP may request that gates remain in place.
4. Licensee will make a one-time payment in the amount of [REDACTED] for this License, which amount shall be payable within thirty (30) days after the Effective Date (as defined below).
5. Termination or cancellation of this License shall not affect the obligations for acts or omissions occurring prior to termination or cancellation.
6. Licensee will at its sole expense obtain and will at all times comply with and maintain the Property in compliance with all local, state and federal permits, and will comply with all laws, ordinances, rules, regulations and requirements of all federal, state and local governments and appropriate departments, commissions, boards and officers thereof, which may be applicable to the exercise of the rights granted herein and use of the License contemplated hereby.

7. Licensee agrees that the activity allowed by this License shall not create or cause damage to the Property. Licensee shall promptly take, at their sole expense, any corrective actions or repairs to any damage to Property including but not limited to damage to the access road and or laydown area caused by Licensee or its employees, agents, contractors, invitees or others, and take any steps necessary to insure that erosion does not occur and repair any erosion which may occur as a result of the exercise of the rights herein granted.
8. Licensee shall not undertake or permit: (a) construction of any structure or improvement on the Property beyond those described in Exhibit A; or (b) storage, even temporarily, of hazardous materials, products or equipment on the Property in each case without prior notice to and written approval by CMP. Lessee shall comply with all applicable local, state and federal guidelines and procedures for material and chemical containment and/or transfer at its sole cost and responsibility.
9. Licensee agrees to keep the Property neat, clean, orderly and safe and shall not permit any waste or nuisance on the Property. If CMP determines, in its sole discretion, that Licensee is not acting within a reasonable time to so maintain the Property, CMP shall provide written notice to Licensee and Licensee shall have thirty (30) days following such notice to cure such failure. If the thirty (30) day cure period does not allow sufficient time to cure such failure then CMP may agree upon a specific extension of the time to cure the failure or agree upon a specific resolution of the failure. After such thirty (30) day period (as may be extended), CMP may cancel this License, or correct the situation and Licensee agrees to reimburse CMP for documented expenses incurred for such corrective actions. Within thirty (30) days of CMP's submittal of an invoice to Licensee, Licensee shall reimburse CMP for such expenses for such corrective actions and all related work. CMP's actions to correct the failure to maintain as required and Licensee's payment for such actions shall not waive Licensee's default and shall not make CMP liable to Licensee for any damages resulting therefrom or any other claim by Licensee.
10. Licensee shall not assign this License nor lease or underlet or improve the Property or to make or suffer to be made any alteration thereon.
11. Licensee is fully familiar with the condition of the Property. CMP has made no representations of whatever nature as to the condition of the Property and Licensee accepts the Property "as is".
12. The License herein granted shall at all times be subject to and shall not in any way limit CMP's rights in or use of the Property, provided that CMP shall not materially obstruct or interfere with Licensee's use and enjoyment of the License or access thereto. Further, nothing in this License shall be construed as conveying any rights not expressly granted herein, nor shall any liability arise from CMP's use of its Property other than due to CMP's willful misconduct.
13. If Licensee or its employees, agents, contractors, invitees or others caused or causes a violation of the Federal Occupational Safety and Health Administration regulations and/or Maine Revised Statute: Title 35-A, Chapter 7A (HIGH VOLTAGE SAFETY

ACT) or any other rule or regulation applicable to CMP and it is determined by CMP that such conduct presents an immediate threat to public safety, such acts shall constitute a default under this License and CMP shall have the right to correct such violation immediately, including but not limited to removing Licensee from the Property without notice. If CMP determines that said conduct does not impose an immediate safety hazard, after written notice from CMP, Licensee shall have thirty (30) days to correct the situation unless Licensee has obtained prior written consent from CMP.

14. During the term of this License, Licensee shall maintain, or cause its contractors to maintain, appropriate and adequate workers' compensation, automobile and commercial general liability insurance (in an amount not less than Three Million Dollars (\$3,000,000) per occurrence and Five Million Dollars (\$5,000,000) in the aggregate) and other applicable insurance, with solvent, reputable insurance companies rated not less than A-/VII in the most current "Best's Key Rating Guide" and qualified to do business in the State of Maine in connection with the use of the Property under this Agreement. Each of the policies required hereunder (other than worker's compensation insurance coverage) shall name CMP as additional insured and shall include endorsements that are reasonably acceptable to CMP. Licensee shall provide to CMP a copy of the certificate of insurance or a copy of the insurance policy and relevant additional insured endorsement evidencing coverage required hereby at full execution of this Agreement and thereafter, and from time to time upon CMP's request and one (1) time annually, during the term of the Agreement.
15. This License shall terminate automatically to the extent any portion of the Property is condemned or taken by any manner for any public or quasi-public use as of the date of such taking.
16. Any notices required herein shall be addressed to CMP and Licensee at the addresses provided above or to such other place as may be designated by written notice. Unless otherwise directed, all License fees shall be payable to CMP at the address stated above.
17. Licensee agrees to indemnify CMP and its parent corporation and affiliates and its and their directors, officers, employees, agents, contractors, successors and assigns and protect and hold it and them harmless from and against all claims, penalties, fines demands and actions arising out of the use of the Property by Licensee, or its employees, agents, contractors, invitees or others.
18. This License constitutes the entire agreement between the parties. There are no terms, obligations, or conditions pertaining to this license other than those contained herein.
