Project: MHPC #1201-22 Twin Energy Wind Project,
Construct Wind Turbines and Access Roads

Town: Rumford, ME

Dear Ms. Andrade:

In response to your recent request, I have reviewed the information received August 26, 2022 to initiate consultation on the above referenced project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA).

Identification of Historic Properties

The Commission agrees with the findings of the Architectural Survey Report that the following properties in the Area of Potential Effect (APE) are either listed in the National Register of Historic Places (NR); have previously been determined to be eligible to be listed in the NR; or are newly identified as being eligible for listing in the NR.

National Register Listed:
- Rumford Commercial Historic District
- Municipal Building, 145 Congress Street, Rumford
- Mechanic Institute, 52-60 Congress Street, Rumford
- Rumford Falls Power Co. Building, 49 Congress Street
- Strathglass Building, 23 Hartford Street, Rumford
- Strathglass Park Historic District, Rumford

Previously Determined Eligible:
- Farmstead, 1805 Roxbury Road, Roxbury
- Mitchell Farmstead, 816 Roxbury Road, Mexico
- Residence, 34 Penley Street, Mexico
- Rumford Falls Paper Co. Historic District
- Rumford Falls Paper Co. Mill, 60 Lowell Street
- Rumford Falls Paper co. Office Building, 60 Lowell Street
- Hancock-Somerset-Kennebec-Penobscot Street Historic District, Rumford
- Hancock Street Housing Historic District (Survey Map Nos. D, 918-926)
- Hancock Apartments, 520 Hancock Street, Rumford
- Residence and Barn, 175 Essex Street, Rumford

- St. Athanasius-St. John the Baptist Church, 126 Maine Avenue, Rumford
- St. Barnabas Church, 71 Rumford Avenue, Rumford
- WW I Monument, Rumford Avenue, Rumford
- Morse Bridge #2585, Bridge Street, Rumford
- Hartford Street Bridge #3638, Hartford Street, Rumford
- Chisholm Park Bridge #2990, Portland Street, Rumford
- High Bridge, South Rumford Road, Rumford
- Rumford Falls Hydroelectric Facility and Canal Historic District
- Kimball Farmstead, 63 Kimball Road, Rumford

New Determinations of Eligibility

- Mexico Congregational Church, 163 Main Street, Mexico
- Residence, 125 Franklin Street, Rumford
- George and Edith Stratton Pettengill Residence, 347 Pine Street, Rumford
- First Baptist Church, 112 Washington Street, Rumford
- Somerset Street Residential Historic District (Survey Map Nos. F, 1300-1304)

In addition to the properties identified above and based on the newly gathered survey information, the Commission concludes that the following additional properties may be eligible for listing in the NR:

- VFW Lounge, 330 Waldo Street. Although its historic function and date of construction have not been ascertained, the two-story brick building appears to retain a great deal of integrity of design and materials, at least on the exterior.
- Former High School, 3 Recreation Drive, Mexico. Despite the replacement windows, the building may be eligible under Criterion A in the area of Education. Further information about the integrity of the interior would need to be gathered to confirm this preliminary finding.
- Apartment Block, 119 Main Street, Mexico. This three-story brick apartment block is distinguished by its unusual three-story brick porch. It is unusual among other examples of the building type in Mexico.
- United States Post Office, 7 Riverside Avenue, Mexico. This building appears to be a substantially intact example of a type of modern style post office building that was built in small communities.
- House, 104 Knox Street. This Queen Anne style house appears to retain integrity of design and materials, at least on the exterior. More information would be needed to ascertain its history, the names of its owners, and its interior integrity in order to make a final determination of eligibility.

Correction to the list of Previously Determined Eligible Properties

- Residence, 55 Holyoke Avenue, Rumford. This property was identified in the CARMA database as being eligible for listing in the NR. However, that was an error that has since been corrected. The Commission does not believe that this property is eligible for listing in the NR.

Findings of Effect

The Commission generally agrees that the proposed undertaking will have little or no visual impact on historic properties in the APE. However, we request the following additional information to complete our evaluation:

1. With regard to the Mitchell Farmstead at 816 Roxbury Road, Mexico, please provide a visual simulation of the proposed project as viewed in leaf-off conditions from the NR eligible property. The simulation should include the existing wind turbines associated with the Record Hill Wind and RoxWind projects that are presently visible from the farmstead.

2. Assessment of effects for the five additional properties listed above that the Commission concludes are or may be eligible for listing in the NR.

We look forward to continuing consultation with you. If you have any questions, please contact Megan M. Rideout of this office at megan.m.rideout@maine.gov or (207) 287-2992.

Sincerely,

Kirk F. Mohney

Re: MHPC #1201-22 Twin Energy Wind Project, Rumford, ME
PAL #4252

Dear Mr. Mohney:

On behalf of Twin Energy Wind LLC, PAL is pleased to submit the enclosed report that supplies additional information about historic architectural properties within the area of potential effects (APE) of the Twin Energy Wind Project in Rumford, Maine (MHPC #1201-22). After reviewing PAL's Architectural Survey Report for the project, the MHPC requested in a letter dated September 21, 2022, additional visual simulations for the Mitchell Farmstead, 816 Roxbury Road, Mexico (SM # 85–91). The MHPC also requested effects assessments for Former High School, 3 Recreation Drive, Mexico (SM #619); Apartment Block, 119 Main Street, Mexico (SM #663); U.S. Post Office, 7 Riverside Avenue, Mexico (SM #684); VFW Lounge, 330 Waldo Street, Rumford (SM #907); and House, 104 Knox Street, Rumford (SM #1086).

On the basis of visual assessments conducted by TJD&A and our evaluation for these properties, PAL recommends that the Twin Energy Wind Project will have no adverse effect on historic properties.

If you have any questions about the enclosed materials, please contact Melissa Andrade, Architectural Historian, at any time.

Sincerely,

Melissa Andrade
Architectural Historian

Report
Twin Energy Wind Project
Rumford, Maine

Historic Architectural Reconnaissance Survey
Additional Information
October 5, 2022
PAL No. 4252

Submitted to:

Twin Energy LLC
13 Elm Street, Suite 200
Cohasset, MA 02025

The report is an addendum to PAL's Architectural Survey Report for the Twin Energy Wind Project (Project) in Rumford, Maine (MHPC #1201-22). It was prepared in response to the Maine Historic Preservation Commission's (MHPC) review letter requesting additional information dated September 21, 2022.

The MHPC requested visual simulations from the Mitchell Farmstead, 816 Roxbury Road, Mexico (SM #85–91), depicting Record Hill and RoxWind projects and the proposed Twin Energy Wind project. Visual simulations and photos are below and support PAL's effects assessment in the original report. An updated and more detailed viewshed map from August 2022 is below (Figure 1).

The MHPC also recommended the following five properties eligible for listing in the National Register: Former High School, 3 Recreation Drive, Mexico (SM #619); Apartment Block, 119 Main Street, Mexico (SM #663); U.S. Post Office, 7 Riverside Avenue, Mexico (SM #684); VFW Lounge, 330 Waldo Street, Rumford (SM #907); and House, 104 Knox Street, Rumford (SM #1086). Effects assessments were subsequently requested for the properties and are below using data provided by TJD&A and included in the original report for the Project and the reconnaissance field survey conducted in March 2022.

Mitchell Farmstead, 816 Roxbury Road, Mexico (SM #85–91)

The farmstead is in the midground distance of the turbine development at approximately 2.3 miles east of the closest turbine (Figure 1). The farm is sited on relatively level terrain with open farmland to the west (across the street). The property has existing views in its midground and background, between 2.8 and 3.1 miles away of the completed RoxWind Turbines and between 3.7 to 5.9 miles away of the completed Record Hill Turbines (Photos 1–2, Figure 2). Clusters of mature evergreen and deciduous trees immediately surround the buildings within the farm complex to the north and across the street to the west and partially screen views of the proposed Project (Photo 3). Views of the proposed Project would consist of the uppermost portions of the turbines and blades and would be distant and viewed over intervening vegetation along the mountain slope and through screening vegetation from the developed portion of the farm along the road edge and unscreened by foreground vegetation in the fields on the west side of the road (Figures 3–4). The Project will not alter the immediate landscape setting around this property and views will be partially screened due to elevation, intervening topographical features, and/or screening vegetation.

During its review of the Record Hill Wind Project in 2009, the MHPC found that the Record Hill Wind Project would have an adverse effect on the rural setting of the Mitchell Farmstead in Mexico, Maine. An MOA between the Maine State Historic Preservation Office and the USACE specified the preparation of a Maine Historic Building Record documentation (MHBR No. 46) to Historic American Buildings Survey (HABS) standards to mitigate the effect. The documentation was prepared and submitted by PAL in 2011. The subsequent development of the RoxWind Project further impacted the rural setting of the farmstead with similar views as those from Record Hill. Because the rural setting of the Mitchell Farmstead has previously been impacted by views of the same project-type and the effects have been sufficiently mitigated, PAL concludes that the Project will have no adverse effect on the integrity of the property.

Effects Assessments of the Additional Recommended Eligible Properties

The five additional properties recommended eligible for listing in the National Register by the MHPC are within the background distance of the proposed project.

Former High School, 3 Recreation Drive, Mexico (SM #619)

The former high school is approximately 4.8 miles southeast of the proposed turbines (see Figure 1). The property is in the densely developed village center of Mexico on terrain defined by a westward downslope toward the Androscoggin River. The building faces southwest and a building is immediately to the northeast. The findings indicate the property will have no views of the constructed Project due to intervening mature vegetation, buildings, and topography (Photo 4).

Apartment Block, 119 Main Street, Mexico (SM #663)

The apartment block is approximately 4.8 miles southeast of the proposed turbines (see Figure 1). The property is in the densely developed village center of Mexico on terrain that gently slopes upward north/east away from the Androscoggin River. The building faces southwest and has dense vegetation and buildings to the northwest. The findings indicate the property will have no views of the constructed Project due to intervening dense development and vegetation (Photo 5).

U.S. Post Office, 7 Riverside Avenue, Mexico (SM #684)

The U.S. Post Office is approximately 4.7 miles southeast of the proposed turbines (see Figure 1). The property is in the densely developed village center of Mexico on terrain that gently slopes upward north/east away from the Androscoggin River. The building faces southwest and has buildings immediately surrounding it to the northwest. The findings indicate the property will have no views of the constructed Project due to intervening densely developed commercial and residential properties and topography (Photo 6).

VFW Lounge, 330 Waldo Street, Rumford (SM #907)

The VFW Lounge is approximately 4.8 miles southeast of the proposed turbines (see Figure 1). The property is in the densely developed village center of Rumford on terrain that gently slopes north/west away from the Androscoggin River. The building faces southwest and has buildings immediately to the northwest. The findings indicate there is only a slight possibility that the Project will be visible

from the westmost end of the property. These views if present, would be limited to the top-most tip of the closet turbine and would be distant and viewed over intervening development and through screening vegetation. Such a view has no potential to impact any characteristics that may make the property eligible for listing in the National Register (Photo 7).

House, 104 Knox Street, Rumford (SM #1086)

The house is approximately 5 miles southeast of the proposed turbines (see Figure 1). The property is in the densely developed village center of Rumford on hilly terrain that slopes upward to the north/west (toward the Project). The house faces southwest, and dense vegetation bounds the parcel. The findings indicate the property will have no views of the constructed Project due to intervening densely developed residential properties, vegetation, and topography (Photo 8).

Recommendations

PAL recommends that the Twin Energy Wind Project will have no adverse effect on the Mitchell Farmstead and no effect on the five properties discussed above because any views of the Project will be distant or will have no potential to affect the integrity of the immediate settings or other characteristics of significance of those properties.

Photos and Figures

Photo 1. Viewshed facing west/northwest from north end of Mitchell Farmstead, existing turbines visible from Record Hill at far right. Roxwind is at center behind screening vegetation and proposed Project is at far left behind screening vegetation.

Re: MHPC #1201-22 Twin Energy Wind Project, Rumford, ME
PAL #4252

Dear Mr. Mohney:

On behalf of Twin Energy Wind LLC, PAL is pleased to submit the enclosed report that supplies additional information about historic architectural properties within the area of potential effects (APE) of the Twin Energy Wind Project in Rumford, Maine (MHPC #1201-22). After reviewing PAL's Architectural Survey Report for the project, the MHPC requested in a letter dated September 21, 2022, additional visual simulations for the Mitchell Farmstead, 816 Roxbury Road, Mexico (SM # 85–91). The MHPC also requested effects assessments for Former High School, 3 Recreation Drive, Mexico (SM #619); Apartment Block, 119 Main Street, Mexico (SM #663); U.S. Post Office, 7 Riverside Avenue, Mexico (SM #684); VFW Lounge, 330 Waldo Street, Rumford (SM #907); and House, 104 Knox Street, Rumford (SM #1086).

On the basis of visual assessments conducted by TJD&A and our evaluation for these properties, PAL recommends that the Twin Energy Wind Project will have no adverse effect on historic properties.

If you have any questions about the enclosed materials, please contact Melissa Andrade, Architectural Historian, at any time.

Sincerely,

Melissa Andrade
Architectural Historian

Enclosure

As proposed, the project will not adversely affect historic properties. Pursuant to 800.5(c), if no consulting parties object to this finding within the 30-day review period, the project may proceed, as proposed, unless resources are discovered during project implementation pursuant to 800.13
