

Weaver Wind Project

MDEP Site Location of Development/NRPA Combined Application

SECTION 16: WATER SUPPLY

16.0 WATER SUPPLY

16.1 WATER SUPPLY REQUIREMENTS

The project will not require water supply for the operation of the wind turbines or the electrical equipment.

16.2 CONSTRUCTION WATER SUPPLY

During construction, the Applicant or its contractors will supply drinking water for workers and water for dust abatement on the gravel access roads. Drinking water will be provided as bottled water. Dust abatement water (up to 20,000 gallons per day, spread by tanker trucks) will be drawn from off-site non-potable water sources, which may include nearby lakes, such as Spectacle Pond, but will not include streams, brooks, or ground water sources. Surface water withdrawals will be done in accordance with reporting requirements in 38 M.R.S.A. Section 470-B, and if applicable, pond water level regulations in 06-096 Chapter 587.
