

Weaver Wind Project

MDEP Site Location of Development/NRPA Combined Application

SECTION 23: WATER VAPOR

23.0 WATER VAPOR

The operation and construction of the project will not generate water vapor. Additionally, the project will not cause an unreasonable alteration of climate including alterations to existing cloud cover, fog, or rainfall characteristics in the area as identified in the No Adverse Effect Standard of the Site Location Law 06-096 CMR 375.2 (No Unreasonable Alteration of Climate).
