

DEP

To Whom it may Concern

I am writing about your next meeting on Calif. regulations on Gas Powered vehicle.

There is no way that I would buy an EV when I knew that my Gas powered Car is going to be resold and put back on the road again. What sense does that make.

What are you going to do about antique cars. You think that a person that owns an antique car is going to trade it in for an EV no way!

How about Snowmobiles and motorcycles, ATVs and outboard motors, Chain saws and generators.

Where are the Charging Stations?

Finally Harold Perth
