My name is Peter Dion and I am writing to voice my strong opposition to this legislation and to reject the entire premise upon which it is drafted. The citizens who have proposed it have to right to dictate to me what type of vehicle I own or the fuel that powers it. I submit that the entire so-called "carbon footprint" of Maine is equal to about 20 minutes of run-time of the average Chinese power plant. If these poltroon are so concerned about the environment, I suggest they go to Beijing and take their case to the CCP. At which point, I will be happy to write them a letter of support to whatever gulag or prison that is hosting them.

Peter Dion
