Dear state officers,

A steady transition to zero-emission cars and trucks will provide Mainers with cleaner air, better choices, and save families and businesses money.

I have a plug in hybrid and rarely need to use gas, saving me hundreds of dollars a year. Having more hybrids and electric cars become available as a result of these higher standards will save money for all Mainers, not just me. Yet the rules don't outlaw gas vehicles or limit access. These rules will give Mainers more choice not less choice, while also cleaning our air, cutting pollution from vehicles by 75%.

Cleaner cars are good for Maine.

Thank you.

Cheryl McCarter Hoffman
