I am a resident of Bridgton and am writing to express my support for clean cars and a transition to zero-emission cars and trucks in Maine. Our state needs to get out in front of this transition to reap the benefits that will come from this inevitable transition. As we try to attract young people and young families to Maine, we need to demonstrate that we are leaders in the national effort to address climate change. I want all of us in Maine to be able to access more models of zero-emission cars and trucks so that we can meet Maine's climate goals. Let's be a leader for a clean energy future that meets the needs of all Mainers.

Sincerely,
Diane Fitzgerald
