Subject: "Comment on Chapter 127-A Advanced Clean Cars II Program (Reposting)"

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I would like to make the following comments:

Transportation makes up around 50% of the carbon inputs in Maine. Therefore it is imperative that we make a quick transition from vehicles that use fossil fuels to have a chance to limit the worst impacts of Climate Change. Scientists report that we are passing the 1.5 degrees C standard to limit the basic impacts of CC. Approving the Advanced Clean Car program will provide for the fastest conversion away from fossil fuel vehicles and allow Maine to meet our State's Clean energy goals. It will still allow for purchase of fossil fuel vehicles. This program will help save money as we reduce the effects of CC and help clean up the atmosphere from other pollutants. Please act quickly to approve this program.
