Dear Bureau,

As you consider the important decision regarding clean transportation in Maine, we would like to add our encouragement to pass this standard. We have been driving an EV for the past 10 years and for three years have had two EVs and no gas cars. Not only has the time come for reducing our pollution to the planet, the EV technology is ready and waiting. We can't imagine going back to gas.

Maine, and Earth, need this move to reduce our pollution and also to lead the nation in a cleaner direction.

Thank you for your time and responsibility for us all.

John and Susan Beaman
Cumberland, ME
