Hello Bill,

My name is Lindsay Bourgoine, and I serve as ReVision Energy's lead on policy and government affairs. As you likely know, we testified in support of the adoption of Advanced Clean Cars II standards at the hearing in August, and ahead of the BEP's deliberations and decision on the topic tomorrow, we wanted to respectfully pass along this opinion piece regarding grid readiness from our director of E-Mobility, Barry Woods, who is also the President of the Board of Plug In America.

You can find that piece here: <https://www.revisionenergy.com/solar-information/stories-inspiration/news-articles/ev-updates/maine-grid-ev-adoption>

If you are able to share with board members and/or include in their packet, it would be much appreciated, or if there is a better way to pass this message along to board members, please let me know! Thank you.

All the best,  
Lindsay Bourgoine
