DEP,

I am writing to express my strong support for the proposal to adopt Advanced Clean Car II standards starting with model year 2028.

Climate Change is wreaking havoc with the Maine coastline and adopting EV's faster is one of the ways we can help mitigate this. My family is now fully electric in our vehicles and I hope you will make it easier for other ME's to make the same choice.

I strongly urge the Board of Environmental Protection to adopt the proposed ACCII standards which will save Mainers money, reduce harmful air pollution, and aid in Maine's efforts to tackle climate change.

Best Regards,  
Stefan Bergill

Sincerely,  
stefan Bergill
