Subject: Comment on Chapter 127-A: Advanced Clean Cars II Program

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I write as a concerned citizen and clean air proponent in opposition to this Program. For many reasons, including the proliferation of toxic waste caused by batteries, and many other unintended pollutants caused by EVs. Maine should not over react to adopt temporary and somewhat destructive technology as a solution. Current automotive emissions are so much lower than the past and will continue to evolve by consumer mandate not by government mandate. Please do not advance this program in this format.
