Tell the evil ones in Augusta If they're going to ban gas powered vehicles, then they need to ban.

Plastic Syringes
plastic Milk Jugs
fabrics
furniture
vinyl siding
Make up
Kids toys
Interior airline components
Electronics
Artificial Hearts
Cleaning products
Paint
electric vehicles-(made from petroleum base products)
kayaks
and the list goes on

The production of these items produces carbon pollution just like gas powered cars and trucks. Besides recycling, let's look at reusing and using less .
