Maine people should have the names of the groups (PACS) funding this idea. (for transparency)

What funds will the State of Maine be contributing for affordable infrastructure to be put in place. Every household should have a charging station as an example.

What funds will the State of Maine contribute for Maine people to afford a new EV. (Any Maine citizen that has lived here 10 years or more and income of less than 75,000).

What emergency plans will be in place if winter Temps or Snowstorms rend EVs inoperable ?

Have scientists studied how much of the earth's minerals will be depleted and if the earth's crust can manage to hold together before creating a problem with our magnetic field.

We owe the earth and air in the save the planet for the future.

Thank You for taking my questions.

I am anxious to hear the answers in detail.
