I am a senior citizen living on a fixed income in a fairly rural town. I do not want an electric vehicle. Not only can I not afford one, but I do not want the extra hassle of having to deal with the charging of it, the extra weight on my driveway, the extra insurance costs, etc. If others want one fine, but it should be a choice not a rule. There are many other reasons they are not a good idea.

Thank you for reading this.
