I wanted to express my great concern about the idea of a mandate for electric vehicles in Maine. First, we should not be mandated about any kind of vehicle.

Secondly, Mainers can not afford a \$45,000 to \$70,000 vehicle. Our electric rates continue to rise as the democrats insist on subsidizing solar and families are barely scraping by. We simply can not afford this! Lastly, the batteries for these cars can catch on fire! We don't have the infrastructure for a mandate of this kind! There are many more reasons to say no to this kind of mandate.

Sincerely,  
Sarah Windsor
