Hello,

These are some of the many reasons this should not be enacted.

- There are not sufficient charging stations.
- Most Maine residents are retired and cannot afford this new bill.
- Electric vehicles are not durable enough to be used annually during the harsh Maine winters and bad road conditions.
- Many business are already being driven out of state because we can't afford to continue them
- Each state should be able to have free choice of vehicle that suits the environment and affordability of the population.

Thank you.
