Subject: Comment on Chapter 128: Advanced Clean Trucks Program

EXTERNAL: This email originated from outside of the State of Maine Mail System. Do not click links or open attachments unless you recognize the sender and know the content is safe.

This communication is to state my disapproval of any plans the State of Maine has to adopt in any way California's EV rules especially as it applies to larger trucks and vehicles. We do not have the electrical infrastructure to support such a policy and the citizens surely cannot afford to build it at this time. Electrification of our commercial fleets may be possible in the future, but cannot be rushed into without a support base in place first. I feel that is many years down the road. It is just not a feasible policy to introduce to Maine at this time.

Thank-you,
Brian Prince
