Dear Air Quality Bureau Cayting,

- The Maine electrical grid's ability to handle additional Medium & Heavy-Duty (MHD) Truck demand and the significant investments needed to ensure uninterrupted service;
- The significant investments needed to build out brand-new charging infrastructure for brand new (and unproven) MHD truck propulsion technology; and
- The much higher cost, reliability (range, cold weather climate, auxiliary power needed for certain applications, etc.) and availability of these new MHD electric trucks.

Please vote against this!

Thank you

Sincerely,

Dan Spencer
