Dear Air Quality Bureau Cayting,

I am writing to voice my concerns about this proposal. Maine is not California. We are a much more rural and less populated state. This technology in heavy trucks is unproven. It will cause huge problems for medium and long haul trucks especially in the winter. It will effect everything from plowing the roads to putting groceries on the shelves to heating our homes. We do not have the electrical infrastructure to support this proposal either. This technology needs to evolve not be thrown at us because some environmental group thinks it's a good idea. Please use common sense and vote against this proposal. Thank you Jeffrey A Simpson

Sincerely,

Jeffrey Simpson
