Dear Air Quality Bureau Cayting,

Mandates are NOT the answer here. We do not have the electrical infrastructure to support a mandate. This would make our entire economy vulnerable & weak. New Hampshire isn't moving forward with such mandates, which means if we do, Maine business will be a distinct disadvantage. I am not against electric vehicles, however they need many years of continued innovation/testing. If they work well, everyone will buy them. A premature mandate is no the answer.

Sincerely,

Matt Poole
