We need all forms of fuel sources. Currently there is not enough infrastructure and it is out of financial reach for most Maine citizens. Our economic standing in Maine is at the bottom. People will make our own choices what is best for us. Not the government. This is overreach. Not to mention winters in Maine will not support this. Most of us cannot afford it. Why would we want to be like the failed state of California. People are fleeing due to crime, taxes and regulations. Let's model ourselves on a successful s as yet like Florida or NH
This helps no one this is nothing but a money grabbing hoax.
