Dear Air Quality Bureau Cayting,

Good afternoon,

I have great concerns regarding any mandates related to electric trucks for Maine. Specially, we do not currently have the capacity within our electrical grid to facilitate this technology on a larger-scale as yet, not to mention the unproven technology in our climate. Finally, the significant expense for these trucks would make it cost-prohibitive until larger-scale production is in place. Thank You for your consideration - Scott Welch

Sincerely,

Scott welch
