Dear Air Quality Bureau Cayting,

This is bad for Maine. We should not be connected to any regulations from California! Also this is going to be very costly for small businesses to purchase these new vehicles and have charging stations for them. I also question if we have the electrical infrastructure to support this massive move to electric. Please do not approve this bill, its bad for Maines small business owners. How will this affect Maine consumers? Will the price of good rise as a result of this? More research may be necessary.

Sincerely,

Theresa Thompson
