I had a few comments see below

Page 1 E.

E.. **Disposal.** “Disposal” means the final disposition of material in a manner that does not constitute recycling. Disposal includes any placement of material in the permitted area of a landfill. Or incinerators.

Page 3 2 B.

b. A municipality must provide for the collection and recycling of all packaging material types that have been on the readily recyclable list for at least 3 consecutive years, Except for the first and second year of the program.

--

Maybe 2.B. needs to be clearer. That recycling list is not determined yet so for the first two years how could someone use that list? Need to start in year 3 with this rule.

Thank you,

Vic
