

MAINE DEPARTMENT OF ENVIRONMENTAL PROTECTION CASCO BAY BOOMING STRATEGIES & SHORELINE TYPES

1:45000

LEGEND

Coastal Marine Geologic Environments

- Ranked from most to least vulnerable
- Marshes (1)
 - Mud Flats, Sheltered (2)
 - Coarse Flats & Bars, Exposed (3)
 - Coarse Beaches & Riprap (4)
 - Mixed & Low Energy Beaches (5)
 - Sand Beaches (6)
 - Rocky Shores (7)
 - Sand Dunes (8)
 - Coastal Barrier Resources System Area

Geographic Response Plans

- Response Vessels
- Ocean Boom
- Intertidal boom
- Harbor Boom
- Staging Area
- Collection Point
