

Universal Waste Management and Recycling Companies

The following list is not necessarily a complete list of universal waste handlers. The DEP, by providing this list, does not imply that the companies listed are in compliance with applicable laws, nor does this list represent an endorsement. A generator should personally evaluate the services and compliance status of any company hired to handle universal wastes.

Universal waste management companies that wish to have their names added or deleted from the list can contact Kevin P. Jenssen at (207) 299-4877 or by email at kevin.p.jenssen@maine.gov.

Universal Wastes include: CRTs (Computer monitors, TVs, etc.), Mercury Lamps, Mercury Devices (Includes thermometers, manometers, switches, etc.), Mercury Thermostats, Motor Vehicle Mercury Switches, PCB ballasts (Non-leaking), Batteries

Other wastes listed by the following companies may be handled for convenience but are not Universal Wastes.

Note: Companies that take CRTs also usually take CPUs.
