USE OF AMERICAN IRON AND STEEL

“SEC. 436. (a)(1) None of the funds made available by a State water pollution control revolving fund as authorized by title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et seq.) or made available by a drinking water treatment revolving loan fund as authorized by section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) shall be used for a project for the construction, alteration, maintenance, or repair of a public water system or treatment works unless all of the iron and steel products used in the project are produced in the United States.

(2) In this section, the term “‘iron and steel products’” means the following products made primarily of iron or steel: lined or unlined pipes and fittings, manhole covers and other municipal castings, hydrants, tanks, flanges, pipe clamps and restraints, valves, structural steel, reinforced precast concrete, and construction materials.

(b) Subsection (a) shall not apply in any case or category of cases in which the Administrator of the Environmental Protection Agency (in this section referred to as the “Administrator”) finds that—

(1) applying subsection (a) would be inconsistent with the public interest;

(2) iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or

(3) inclusion of iron and steel products produced in the United States will increase the cost of the overall project by more than 25 percent.

(c) If the Administrator receives a request for a waiver under this section, the Administrator shall make available to the public on an informal basis a copy of the request and information available to the Administrator concerning the request, and shall allow for informal public input on the request for at least 15 days prior to making a finding based on the request. The Administrator shall make the request and accompanying information available by electronic means, including on the official public Internet Web site of the Environmental Protection Agency.

(d) This section shall be applied in a manner consistent with United States obligations under international agreements.

(e) The Administrator may retain up to 0.25 percent of the funds appropriated in this Act for the Clean and Drinking Water State Revolving Funds for carrying out the provisions described in subsection (a)(1) for management and oversight of the requirements of this section.

(f) This section does not apply with respect to a project if a State agency approves the engineering plans and specifications for the project, in that agency’s capacity to approve such plans and specifications prior to a project requesting bids, prior to the date of the enactment of this Act.”
CERTIFICATION BY THE OWNER
OF COMPLIANCE WITH THE
USE OF AMERICAN IRON AND STEEL LAW
enacted on 1/17/2014

(To be completed by the duly authorized Public Water System representative
and provided to Drinking Water Program at the Pre-Construction Meeting)

We, the Owner (Public Water System) named, ____________________________, having
obtained a loan from the State of Maine Drinking Water State Revolving Fund (DWSRF), to
fund the Project named ____________________________, and identified as
Project # ____________ hereby submit to the Drinking Water Program, certification from each
contractor working on the Project that the use of American Iron and Steel in the construction of
the Project complies with the law, or that a waiver has been obtained from the U.S.
Environmental Protection Agency.

Attachment:  Certification by Owner
CERTIFICATION BY CONTRACTOR
OF COMPLIANCE WITH THE
USE OF AMERICAN IRON AND STEEL LAW
enacted on 1/17/2014

We, the Prime Contractor and Subcontractors, as named below, hereby certify that the use of
American iron and steel in the construction of the Project named ________________________________
__________________________, also identified as Project # __________________complies with the
Use of American Iron and Steel Law, or that a waiver been obtained from the U.S.
Environmental Protection Agency.

Prime Contractor Name:  ________________________________________________________________

Signature of Official                          Printed name                          Date
--------------------------------------------------- --------------------------------------------------- ---------------

Subcontractor Name    Signature of Official    Date

Company Name

Company Address

City, State Zip

Subject: American Iron and Steel Step Manufacturer Certification for
Project Name ________________________________

I, ______________________ (company representative), certify that the ____________
(melting, bending, coating, galvanizing, cutting, etc.) process for __________________
(manufacturing or fabricating) the following products and/or materials shipped or provided for
the project is in full compliance with the American Iron and Steel requirement as mandated in
EPA’s State Revolving Fund Programs.

Item, Products and/or Materials:

1. ______________________

2. ______________________

3. ______________________

Such process took place at the following location: __________________________(address)

If any of the above compliance statements change while providing material to this project we
will immediately notify the prime contractor and the engineer.
