

**APPLICATION FOR
2022-2023 DWSRF
LEAD SERVICE LINE INVENTORY ASSISTANCE GRANT**

Lead Service Line Inventory Assistance Grants.

Since the State of Maine has opted not to request the Lead Service Line (LSL) replacement funds during the 2022 funding cycle, a grant fund has been set up using the 15% Set-aside for stop gap funding of lead service line inventory activities. Grants will be offered on a rolling basis to all Community and Non-Community Non-Transient Public Water Systems until the \$600,000 of 2022 grant funds are expended. Grants will be reimbursement for 50% of the approved cost of services not to exceed \$8.00 per service connection.

If I am awarded a grant, how do I get reimbursed?

First, complete your project. Then, by July 1, 2023, submit a request for reimbursement with the following: 1. A copy of the letter of agreement or contract between the water system and the selected firm providing the assistance; 2. Copies of all paid invoices for reimbursable costs.

Can I get a project extension?

A water system may apply for one project extension, for up to 6 months, by calling (207) 274-9003. If a project is not completed by the date approved in the grant or extension, the water system forfeits the grant award. Additionally, a water system may request an extension up front, if it is anticipated the project will take longer than the time allotted. Please indicate this on your application.

How can I get more information?

Contact Bill Dawson at (207) 274-9003 or e-mail William.Dawson@Maine.gov
