

Steps for creating a Google Account

Creating a Google Account is not required to submit an application, however, creating an account will allow you to automatically save your progress, allowing you to close your application and revisit to finish at another time or protect your work in the event of a power/internet outage. Without a Google Account, you will need to complete the application and submit in one sitting.

The below steps will enable you to create a Google Account with *your existing email address (i.e. a gmail account is not required)*.

Click the link to access the web-based application: <https://forms.gle/w9AHPDMqm28sFPDFA>

Before starting to fill out the application, click here

Application Form for DWSRF Eligible Projects

State of Maine
2023 Drinking Water State Revolving Fund

By clicking “Use my current email address instead” you will be able to use your current (business) email address to register for Google services, similar to using your business email to register for other web-based services like zoom or dropbox. There is no need to create an @gmail.com email address to utilize this platform.

Now fill in your name, business email address, and create a new password for your Google Account then click Next.

The screenshot shows the Google Account creation interface. At the top left is the Google logo. Below it is the heading "Create your Google Account". There are four input fields: "First name" with "John", "Last name" with "Doe", "Your email address" with "John.Doe@MaineWaterWorks.com", and "Password" with "W@ter123". A "Confirm" field also contains "W@ter123". Below the password fields is a checkbox labeled "Show password" which is checked. A link "Create a new Gmail address instead" is positioned between the email and password fields. On the right side, there is a graphic of a blue shield with a person icon, and below it, a laptop with icons for YouTube, Gmail, and Maps. Text below the graphic reads "One account. All of Google working for you." At the bottom left is a link "Sign in instead" and at the bottom right is a blue "Next" button.

An email will be sent to the address you provided with a verification code. Enter the code and click Next to complete set up of your account.

The screenshot shows the Google Account verification interface. At the top left is the Google logo. Below it is the heading "Verify your email address". The text reads: "Enter the verification code we sent to John.Doe@MaineWaterWorks.com. If you don't see it, check your spam folder." There is a large input field labeled "Enter code" with a vertical cursor. On the right side, there is a graphic of a grey envelope with a white card inside, a red '@' symbol, and a green checkmark. At the bottom left is a link "Back" and at the bottom right is a blue "Next" button.

Once you verify your account, you will be able to begin filling out your application and any fields filled out will automatically save so you can pause working on it and resume at a later time if needed.
