

Maine Center for Disease Control and Prevention
Monthly STD/HIV Data Update
Cases diagnosed from April 1st to April 30th, 2015

This monthly update provides summary year-to-date (YTD) data about HIV and STDs in Maine. For each disease, the YTD total is shown and compared with the median* YTD values for the last five years. Please note that data presented here may change due to reporting delays or pending epidemiologic investigations.

For more information contact: Sarah Bly at (207) 287-3297 or sarah.bly@maine.gov
