To: Maine Immunization Providers
From: Maine Immunization Program
Subject: COVID-19 Pediatric Vaccine Ordering
Date: June 3, 2022

The Maine Immunization Program (MIP) is pleased to announce that the Pfizer COVID-19 vaccine for children 6 months through 4 years and Moderna COVID-19 vaccine for children 6 months through 5 years is now available for enrolled MIP Providers to order through ImmPact today, Friday, June 3, 2022. This document will instruct you on how to order the vaccines.

Please be advised that although the vaccine is available to order, it cannot be administered until it has received final authorization from the Advisory Committee for Immunization Practices (ACIP).

In order for your facility to be eligible to place a vaccine order, please ensure that the following are up-to-date and complete:

- COVID-19 Vaccine Provider Agreement
- Current ImmPact User Agreement
- Current reconciliation of inventory

Ordering vaccine in ImmPact:

The vaccines will be displayed as the following:

NDC #	Packaging	Manufacturer
59267-0078-04	10-dose vials in cartons of 10 vials each (100 doses total)	Pfizer
80777-0279-99	10-dose vials in cartons of 10 vials each (100 doses total)	Moderna

The minimum ordering quantity will be 100 doses for each vaccine presentation, with a maximum order quantity of 300 doses per presentation.

Orders placed during Wave 1 (June 3 and 7) may arrive as early as June 20. Providers who have placed orders by June 7 at 3:00 pm may receive their order by June 20. Providers must be available to accept their shipment during this week.

Orders placed during Wave 2 (June 9 and 14) will arrive during the week of June 20. Providers should plan to be available throughout the week to accept their shipment upon arrival.

Creating a vaccine order:

Under the 'Inventory' section on the side menu in ImmPact:

- Select "Pandemic Vaccine Request" by clicking on the link
- Choose the pediatric COVID-19 vaccine presentation and enter the dose amount that you would like to receive
- After creating your order, click "Submit Order"

The table below provides the most current information on the upcoming pediatric formulations for the Pfizer-BioNTech and Moderna COVID-19 vaccines.

Potential Pediatric COVID-19 Vaccine Product Details*			
Manufacturer/Vial	Vaccine Age Range	Vaccine Dosing	Storage/Other Details
Pfizer-BioNTech 10 doses per vial MAROON Cap Vial	6 months through 4 years	3 micrograms/0.2mL 2.2mL diluent required 3 Dose Primary Series	Ships at -80°C For details, see Pfizer-BioNTech COVID-19 Vaccine Products
Moderna 10 doses per vial BLUE Cap Vial with a label that has a magenta border	6 months through 5 years	25 micrograms/0.25mL NO diluent required 2 Dose Primary Series 10 doses per vial	Ships at -20°C A document with details on this vaccine is being developed

*Subject to change pending submission of applications, emergency use authorization(s), and CDC recommendation(s).

The storage and handling recommendations will remain consistent with that of the current Pfizer (orange and gray cap) and Moderna products.

Save the Date – Provider Webinar

The Maine Immunization Program will be hosting a webinar on **Thursday, June 9 @ 2:00 pm** to provide an overview of the new COVID-19 vaccines and an opportunity for questions.
