I am getting treatment for breast or cervical cancer but I do not qualify for MaineCare. Can MBCHP help me?

I am already enrolled in MaineCare. What should I do?

You do not need to apply again for this benefit.

If I have insurance, can I still get this MaineCare option?

If you have insurance that covers treatment, even if you have a high deductible, you are not eligible.

Sometimes if you have other insurance that will not cover a pre-existing condition, you can get this option. A pre-existing condition clause means your insurance company will not cover treatment services because you had cancer before your insurance policy started.
