I am already enrolled in MaineCare. What should I do?

You do not need to apply again for this benefit.

If I have insurance, can I still get this MaineCare option?

If you have insurance that covers treatment, even if you have a high deductible, you are not eligible.

Sometimes if you have other insurance that will not cover a pre-existing condition, you can get this option. A pre-existing condition clause means your insurance company will not cover treatment services because you had cancer before your insurance policy started.

What is the Maine CDC Breast and Cervical Health Program?

It is a program of the Maine CDC, DHHS that pays for breast and cervical screenings such as breast exams, mammograms and Pap tests for women who qualify.
