CLINICS & DENTAL SERVICES

FOR MAINE RESIDENTS

Introduction

Oral health is a vital component of overall health throughout the life cycle. Dental disease affects people of all ages; yet to a great extent, it is highly preventable. Early diagnosis of oral health problems through regular dental visits and the use of preventive measures such as fluoride and dental sealants, along with practicing good oral hygiene, good nutrition, and the prevention of oral injuries, are important for people of all age groups. Adopting, practicing, and maintaining healthy behaviors will help everyone to “Keep Your Teeth for a Lifetime.” Unfortunately, and for a variety of reasons, not everyone is able to obtain dental care on a regular basis. However, preventive measures and some services are available to all individuals.

MaineCare: administered through the Department of Health & Human Services, provides dental benefits to individuals whose incomes meet federal poverty guidelines. Eligibility is based on family income. For members age 21 and over, MaineCare now covers comprehensive dental coverage which includes but is not limited to: diagnostic services, preventative services, and restorative services. See page 37 for more information on MaineCare programs.

About This Directory

This directory is a resource for consumers and for health and social services providers likely to be assisting clients, who do not have a regular dentist, in obtaining the dental care they need. These may include people with low incomes, those who do not have insurance coverage or who are eligible for MaineCare, and individuals with special needs. There are a number of clinics and other agencies throughout the state of Maine that either directly provide dental care services or can assist these individuals in obtaining access to care. This directory describes those clinics and agencies, the services they provide, eligibility guidelines, and where to get more information. State-funded assistance programs, tribal health programs, rural community health centers, and other potential sources of care are included. This document is updated about every year, and the information included may not remain accurate, but we hope it can provide a start in finding appropriate resources.

The information in this directory was updated during the winter of 2023 and, to the best of our knowledge, is accurate as of the date of publication. PLEASE NOTE that inclusion in this directory does not guarantee that services will be provided.

We would appreciate learning about other programs and services that provide or assist Maine people in obtaining dental care. If you have suggestions for additions to this directory, please forward them to the Oral Health Program (see inside cover). New information will be added to this directory as it becomes available. In addition, from time to time, updates to this directory may be available electronically. Please check the Maine CDC Website <https://www.maine.gov/dhhs/mecdc/population-health/odh/resources.shtml> for the most up-to-date version of this publication.

Using This Directory

The Directory is divided into three major sections: (I) Clinics and Health Centers (sources of direct clinical services), listed by County; (II) State-Funded Assistance Programs (available to eligible persons statewide); and (III) Other Resources (programs and agencies that may be helpful in obtaining care or that have several locations throughout Maine, as well as other suggestions). This section also includes a list of preventive dental hygiene providers.

Check the resources for your geographic area first. Then review Sections II and III for additional ideas. We have tried to indicate any restrictions such as residence, age or income as clearly as possible, sometimes with the use of bold type and headings. In Section III under "State-wide Resources," we have listed those clinics and health centers that did not impose residence requirements at the time of publication.

Call the clinics, health centers, and other health or social service agencies in your area even if it appears from the description that they cannot provide dental care or help obtain services. Staff may know of new resources and be able to help you, even if they deal primarily with a different population group or area of service.

State-wide Resources

By state-wide resources, we mean those that may not impose geographic or residence restrictions as a condition for receiving services. To our knowledge, the clinics, health centers and agencies listed below may see any Maine resident, regardless of where he or she lives. However, they may not offer out-of-area patients a sliding fee scale, or may otherwise limit services; for example, they may accept MaineCare, but otherwise have restrictions, or see only children. Be sure to ask about any restrictions with a potential service provider at the time an appointment is being made.

CCS Dental Services provides dental hygiene services Monday - Friday including cleanings, fluoride treatments, dental sealants, and x-rays. There is a General Dentist on staff Monday - Thursday for exams and restorative treatment. This program is part of the Community Clinical Services Federally Qualified Health Center that is affiliated with Sisters of Charity Health System and St. Mary's Regional Medical Center.

The program serves children up to the age of 18 years old who are self-pay, covered by MaineCare or are uninsured and may qualify for our FQHC sliding-fee scale discount. This facility is currently accepting new patients, but the wait time is currently 4-5 months. They will see established patients that have been seen in the last 3 years for emergency appointments as needed.

Hours: Monday – Thursday 7:00 AM to 6:00 PM
Friday 7:00 AM to 5:00 PM

Community Dental – Lewiston

Email: lewiston@communitydentalme.org
Website: www.communitydentalme.org

For 100 years, Community Dental has stood as a cornerstone of needed, accessible, comprehensive, quality oral health care in Maine. We provide a wide range of general oral health services for patients of all ages and accept most private insurances and MaineCare. In addition to general dentists, our Lewiston office is also staffed with a Pediatric dentist. Care delivery with nitrous oxide is an option in this office. Qualifying patients may access our income-based sliding-fee. Currently accepting new patients under 12 years of age, call to schedule an appointment with us today! The office sees emergency patients Monday – Thursday starting at 7:00 AM on a First-Come First-Served basis.

Hours: Monday through Friday 7:30 AM to 5:30 PM

Contact Person: Linda Dyer (221-4278)

Email: ldyer2@une.edu

Website: www.UNE.Edu/WCHP/Dental/Patient-Info

The clinic is open only from September to April. The University of New England Dental Hygiene clinic offers dental hygiene services that include oral examination, personalized oral hygiene instruction, blood pressure screening, x-ray survey (x-rays), teeth cleaning, fluoride treatments, and sealant placement. Services NOT provided include fillings and restorations, extractions, crowns, root canals, orthodontics, dentures, bridges, bleach trays, nightguards, or emergency services. There is a strict no-show policy. If you do not show up for your initial apt and do not communicate that missed appointment you will automatically be dismissed from the clinic. This is a teaching clinic, so your appointment length is much longer than your general practice length. An appointment at UNE dental hygiene can take up to 4 hours. Students cannot be rushed. Treatment plans will be discussed with you. Parking is in the rear of the building along the fence line.

New appointments at UNE will require an initial screening appointment. During that appointment you will be asked your medical/dental history and medication list. Please bring that info with you. If you have any artificial joints or known heart issues and need premed, please take prior to your appointment. If you have x-rays from another practice, please have them sent to our office prior to your 1st visit. The email is dentalhygieneclinic@une.edu, if you don't have x-rays to send, we can do them at your first apt

These services are available to the general public and there are no income restrictions. Patients do not see a dentist but work with a student hygienist. The clinic is a participating provider in MaineCare only for patients with other insurances, the Dental Hygiene staff will assist you with claim submission by providing a coded and itemized list of treatments rendered. Low fees are charged to cover the cost of materials only. Payments are accepted by cash, check, MasterCard, or Visa.

Children 12 and younger: fees average \$16.00 Children 13 and over and adults: fees average \$36.00 Senior Citizens 62 and older: fees average \$25.00

Hours: Monday and Friday 8:00 AM to 5:00 PM

Tuesday and Thursday 8:00 AM to 9:00 PM

University of New England Oral Health Center

750 Stevens Ave.

Portland, ME 04103

Tel: 221-4747

Email: oralhealthcenter@une.edu

Website: <https://www.une.edu/ohc/urgent-care>

The Oral Health Center on UNE’s campus offers comprehensive oral health care for patients of all ages. Services offered include but are not limited to cleanings, check-ups, fillings, root canals, extractions, dentures, and bridges. For a full list of services offered please visit their website.

In addition to the services listed above, the Oral Health Center offers Urgent Care services. Appointments in the urgent care clinic are walk-in appointments on a first-come first-served basis and are available on Monday – Thursdays. Arrive at 8:00 AM for the morning clinic or 1:00 PM for the afternoon clinic for registration.

Email: dental@knoxclinic.org

Website: www.knoxclinic.org

Hours: Tuesday – Thursday 8 AM to 3 PM

The Knox Clinic Dental Program provides exams, cleanings, sealants, simple fillings, extractions, and partials to children and adults who are 55 years of age or under whose family earnings are at or below 200% of the federal poverty guidelines. Only residents of Knox County and those towns immediately next to Knox County, like Waldoboro and Lincolnville, are eligible for the dental program. Priority is given to those who need dental care for pain and infection control and to children who have been unable to receive dental care. There is a waiting list. The Clinic offers dentures to those who qualify for them. Patients will be responsible for a payment of \$100.00 per arch prior to starting work on denture preparation.

Applications may be obtained by calling the office at 593-1699, or on our website at www.knoxclinic.org. Residents whose income is up to 100% of the federal poverty guidelines pay \$10.00 for each visit, while those with income between 101% and 200% pay \$20.00 per visit. MaineCare insured children pay \$5.00 per visit. Patients must cancel their appointment at least 24 hours in advance or you will still be charged. Patients who fail to cancel with proper notice are no longer eligible for services.

These services are available because of the incredible support from community members and organizations, including the generous donation of time and expertise from local dental offices. Please call the Knox County Health Clinic Dental Program at 593-1699 for more information.

Islands Community Medical Services, Inc.

15 Medical Center Loop

Hours: Variable – Reach out for more information

The clinic is open from September through April and is available to the general public. Appointments may be made by calling 262-7872.

The Dental Health Clinic operates as part of the Dental Hygiene educational program at the University of Maine at Augusta on the Bangor campus. Student dental hygienists provide preventive services under the supervision of university faculty and both staff and volunteer dentists. Available services include oral screenings, scaling and polishing of teeth, oral hygiene instructions, dental x-rays, fluoride treatments, and sealants. There are no residence requirements or income restrictions. The Clinic does not participate in MaineCare or accept insurance but will provide a coded receipt that can be submitted to an insurer.

Fee: Adults (13 years & older) – \$50.00

Fee: Children (4-12 years) – \$25.00

Fee: Child Orientation (0-3 Years) – \$10.00

DDPC Dental Clinic (Please note restrictions)

656 State Street
P.O. Box 926
Bangor, ME 04402
Tel: 941-4120

Eligibility Criteria: Anyone who is currently an adult client receiving Developmental Services from the Department of Health & Human Services, or anyone who is currently receiving Developmental Services through an agency funded by the Department and is unable to access dental services in the community at large, is eligible for services at the clinic. Our goal is to provide primary preventative dental services to as many of our eligible patients as our limited resources permit.

Services Available: General dentistry and dental hygiene treatment services to patients based on eligibility criteria as outlined above. The Clinic also provides IV sedation dentistry for clients with severe/profound intellectual disabilities and for whom sedation dentistry in a community clinic setting is clinically appropriate. IV sedation dentistry is provided on a very limited number of days. The DDPC Dental Clinic is limited in the scope and quantity of dental services it can provide, even when clinically indicated, because of the limited funding and staffing resources available.

DDPC dental clinic is located within the Dorothea Dix Psychiatric Center.

Hours: Monday – Thursday 8:00 AM to 5:00 PM and some Fridays.

Health Access Network HAN Family Dental Care

They are accepting new patients but there may be a wait list so call today to schedule or get your name on the wait list if necessary. They are willing to see emergency patients so reach out to the office if you are experiencing pain/swelling symptoms.

SECTION II. STATE-FUNDED ASSISTANCE PROGRAMS

Medical and dental benefits available through Maine Department of Health & Human Services, Office of MaineCare Services.

A. General Information

MaineCare provides medically necessary benefits to eligible persons of all ages. Benefits are subject to policy regulations because they are funded with federal and state monies.

The following people may be eligible for medical benefits through MaineCare:

- Persons who receive Temporary Assistance to Needy Families (TANF)
- Persons who receive Supplemental Security Income (SSI)
- Families with dependent children
- Persons who are elderly, blind, or disabled
- Individuals under age 21
- Pregnant women
- Persons in need of nursing home care
- Persons who are in a foster home or boarding home

Applications for MaineCare are available at any DHHS office, by calling toll free 1-855-797-4357 or on-line at <http://www.maine.gov/dhhs/ofi/public-assistance/index.html>.

- After reviewing the application and circumstances, DHHS staff will determine eligibility.
- For the office nearest you, see the listing at the end of this section.
- Individuals having other health insurance such as Medicare or Anthem Blue Cross/Blue Shield may also be eligible for MaineCare.

Note: Dental Providers are not required to participate in MaineCare. They may choose to accept MaineCare members or not. MaineCare Member Services assists in finding dental providers for MaineCare members. The telephone number is 1-800-977-6740; Email is MaineCareMember@molinahealthcare.com.

See part B in this section for more information about benefits for individuals under age 21.

Please note that MaineCare pays enrolled dental providers directly for covered benefits.

Providers cannot charge members for the difference between their usual fee and the MaineCare payments for covered benefits. They can charge for non-covered services.

B. MaineCare Dental Services for Children and Young adults (under age 21)

- People who are covered by MaineCare are covered for preventive, routine, and some specialized dental services.
- Member services can help with getting transportation, setting up medical and dental appointments, finding a physician or a dentist, and answering questions about MaineCare benefits.
- For more information call Member Services toll-free at 1-800-977-6740

(TDD/TTY: Maine relay 711). Email is MaineCareMember@molinahealthcare.com.

The Aroostook County Action Program's (ACAP) Oral Health Program provides education to people of all ages throughout Aroostook County in cooperation with other social service and health care providers. They coordinate a consolidated school oral health program and is a resource for oral health programs in all elementary schools in Aroostook County. They administer a dental sealant program for second and third grade students in every Aroostook County elementary school. They also maintain an extensive lending library. They are accepting pregnant, Head Start, and WIC moms and children with Mainecare.

Saving Smiles of Maine

PO Box 119

Windsor, ME 04363

Tel: 445-2852

Website: www.savingsmilesofmaine.org

Saving Smiles of Maine was established to provide preventative dental hygiene services for people who do not receive regular dental care. They provide services at schools, head start centers, and other facilities, reach out to them to see which facilities they service. They are accepting new patients and accept most commercial dental insurances including Mainecare. Service is provided by Independent Practice Dental Hygienists that utilize evidence-based decay prevention methods of improving public access to oral health prevention-based services that include professional assessments and referrals.

Brilliant Smiles Dental Hygiene

79 Roller Rink Rd.

Oxford, ME 04270

Tel: 539-8188 Fax: 539-8189

Contact Person: Tamsyn Frothingham, IPDH

Email: brilliantsmilesdentalhygiene@gmail.com

Website: www.brilliantsmilesdentalhygiene.com

Hours: Monday through Thursday 8 AM to 6 PM

Brilliant Smiles Dental Hygiene offers initial oral assessments, adult and children's cleanings, fluoride treatments, sealant applications, oral health education and dental referrals. They accept Mainecare through age 20 and work with almost all insurance companies to make your visit more affordable. Currently, they are only accepting new patients up to age 20.

Tooth Fairies Inc.

39 Breton Ln.

Oxford, ME 04270

Tel: 754-1176

Contact Person: Cindy Leavitt, IPDH

Email: healthysmiles4me@gmail.com

Website: healthysmiles4me.org/about.html

Tooth Fairies Inc. is a group of dental hygienists that are equipped with portable equipment which allow them to provide quality care in almost any location. They provide services at a reduced rate for families who do not qualify for MaineCare and who do not have private dental insurance. They provide services in the public schools in the Auburn, Lewiston, RSU 16, and MSAD 17 regions. Reach out to them today to see how your child can get services.

Sunrise Opportunities

Washington County Children's Dental Program

232 Court St. /PO Box 311

Machias, ME 04654

Tel: 255-3254 Fax: 255-4707

Contact Person: Teresa Alley, RDH

Email: talley@sun-rise.tv

Website: sun-rise.tv/dental-program

Washington County Children's Dental Program focuses on the prevention of oral health diseases of children in Washington County. They offer oral screenings, dental sealants, fluoride varnish, and silver diamine fluoride for children at 25 elementary schools and preschool programs. Annually 1,000 children climb on board the "Tooth Ferry" their mobile dental truck. Since 2003, over 20,000 kids have received preventive services through this program. Their services are offered at no out of pocket costs to the kids and they are offered throughout the school year.

Other Resources

Maine State Board of Dental Examiners

Mailing: 143 State House Station

Augusta, ME 04333-0143

Tel: 287-3333 TTY: 711 Fax: 287-81470

Email: dental.board@maine.gov

Physical: 161 Capitol Street

Augusta, ME 04330

Website: maine.gov/dental

The Maine Board of Dental Examiners can provide information on the Maine State Dental Practice Act and licensure of dentists, dental hygienists (IPDH and RDH), dental radiographers, denturists, and expanded function dental assistants. This Board also handles complaints regarding these professionals.

Maine Dental Association

P.O. Box 215

Manchester, ME 04351

Tel: 622-7900 Fax: 622-6210

Contact Person: Cindy Sullivan, Executive Director

Website: medental.org

The Association does not provide clinical services, financial assistance, or direct referrals. Only information on the Association's programs and activities are provided.

Donated Dental Services Program

This program offers free comprehensive dental care to needy disabled, aged and medically compromised individuals by dentists who volunteer their services. The program serves disabled and elderly people who cannot afford needed treatment and have no other way of getting help. Each person's condition must be severe enough to prohibit or significantly limit gainful employment, and they must need extensive treatment rather than only a cleaning or check-up. In addition, they can neither afford dental care nor get it through other programs. Each patient receives services through this program only once. When all needed work is completed, the case is closed. Patients are restored to oral health, but they are responsible for maintaining it.

The Donated Dental Services Program is sponsored by the Maine Dental Association, partially funded by the Maine State Legislature, and administered through a contract with the Dental Lifeline Network. For additional information, and to receive an application, contact the DDS Program referral coordinator at 1-800-205-5615 or go online at <https://dentallifeline.org/apply-for-help/>.

Rural and Community Health Centers

Community health centers also known as Federally Qualified Health Centers (FQHC) may be able to assist individuals in obtaining dental care through agreements with local providers or other arrangements. Each health center has its own policies and procedures.

All FQHCs provide a sliding fee scale for low income, uninsured patients. For information about a specific community health center, call the center directly, or contact the Maine Primary Care Association at Maine Primary Care Association, 73 Winthrop Street, Augusta, ME 04330

Tel: 621-0677 / Website: www.mepca.org

Several community health centers provide clinical dental services on site. Those who provided information are listed in this directory by region with the other services in their area.

Preventive Dental Hygiene Programs offer a range of preventive services provided by registered dental hygienists practicing under Public Health Supervision status. They provide services via contracts and other arrangements with schools, Head Start, WIC agencies, other community agencies such as Boys & Girls Clubs. They include but may not be limited to these organizations:

- TFI (Tooth Fairies, Inc.). - Lewiston, Auburn, and the Oxford Hills Region 207-754-8487
- Tooth Fairies, Inc.- primarily Southwestern Maine 207-998-3500
- Tooth Protectors, Inc. - based in Lewiston, will travel throughout Maine 207-513-1111 or email info@toothprotectors.org
- Maine Dental Health Out-Reach, Inc. - based in Winthrop, works with surrounding school systems 207-377-7003

Other Suggestions

Other sources of help in finding dental services include public health or community health nurses, local hospitals, other health providers, or health and social services agencies in the area. Staff at these agencies often have the best knowledge about what is currently available; for example, they often know who might be accepting new MaineCare patients. For those people who cannot afford to pay "out of pocket", finding a way to pay for dental services is difficult. Options for financial assistance currently are extremely limited. Here are some suggestions:

- Town health officers and/or town health councils, where they are active, can be asked for assistance in special circumstances.
- Local service clubs (such as the Kiwanis or Lions, etc.) can be approached about funding in individual cases.
- Town managers or town welfare directors should be asked about covering dental services under the General Assistance program.
- If individuals are currently receiving other kinds of services (vocational rehabilitation, welfare, employment training, etc.), the outreach worker or social worker should be consulted to find out if dental care can be provided or funded as part of those services.

Acknowledgments

The agencies and programs listed in this directory are gratefully acknowledged for their assistance. Material compiled and prepared by Oral Health Program staff.

The Department of Health and Human Services (DHHS) does not discriminate based on disability, race, color, creed, gender, age, or national origin, in admission to, access to or operations of its programs, services, or activities or its hiring or employment practices.
